

# K-12 Solutions

## for Healthier, Safer Schools

### Have you used your funds yet?

Congress has passed additional Elementary and Secondary School Emergency Relief (ESSER) Funds that can be used to improve and repair your facilities to reduce risk of virus transmission and exposure to environmental health hazards; as well as Governor's Emergency Education Relief (GEER) Fund that can be used for physical barriers to facilitate social distancing.

### Touch-Free Access

Reduce virus transmission by converting door openings to touch-free, minimizing high frequency touchpoints while helping you comply with ADA.

### Antimicrobial door hardware

Minimize exposure to environmental health hazards with antimicrobial coating, which inhibits the growth of bacteria and other germs.

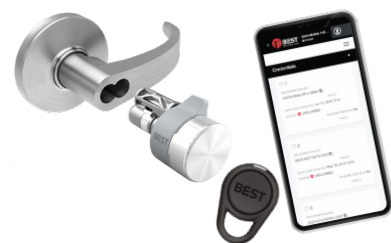

### Glass Partitions

Promote physical distance and protect people from the spread of germs while offering a clean look that allows natural light.

### Movable Walls

Flexibility to quickly transform spaces suiting their inflow and density of students and teachers.

### Mobile credentials and electronic access

Use your phone as a credential and transition to electronic access solutions to enjoy auditing capabilities and an increase in the security of your campus.

### Services

Let our certified technicians help. dormakaba Services provides a tailored, local resource for installation and on-going maintenance for your access solutions.

**Let us help you create a safe, secure, and healthy environment.**

Our experts can assist you with a site survey to determine the best solutions for your school facilities, so you can safely reopen.

Available to purchase via state and cooperative contracts.
